Job Objective: Full Stack Web Developer earned a certificate in Full Stack Web Development from Vanderbilt University, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. I learned to develop full-stack web applications in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, MySQL, Command Line, Git, earning the highest available certification in each stack.

Summary of Skills:

- Discovering problems in our daily lives and brainstorming programmatic solutions. My favorite parts of web-development are the design and construction of the back-end logic, and integrating interesting APIs from the vast amount of data that exists on the web.
- Flexible to work overtime and capable of working under strict deadlines to finish projects in time
- Possess exceptional analytical thinking, logical reasoning, and problem-solving skills
- Team player having excellent organizational and written/verbal communication skills
- Ability to excel in fast-paced and high demanding work environment as well as maintain up-to-date knowledge with latest trends and developments.
- I am fluency Bilingual.
- Self-starters – Responsible and self-motivated with positive attitude and tolerance.
